Description A century old castle Situated on the slopes of the Salève, a few kilometers from Geneva and Annexe, in Haute-Savoie, the castle reigns on the Domaine des Avenièrès, which provides a pleasant change of scenery and allows its guests to recharge their batteries.

Families, couples, singles, groups of friend or colleagues — let yourself be tempted by the chateau des Avenièrès experience. Rooms with unique character. As an exceptional place, the Chateau des Avenièrès offers stays outside the codes of the traditional hotel industry. Each room in this magnificent residence, with its architecture worthy of the most beautiful fairy tale castle, has it's own story to tell.

What did we like Faboulos location overlooking the hills and to lake Geneva.
Warm welcome and stylish restaurant and bar.
Perfect color scheme
Mix of old and modern design well designed
Excellent cuisine with local products
Fantastic breakfast, no buffet. A selection of Foods are brought to the table.

What we didn't like Our room Bleue was not so cosy. Unfortunate placement of the bed facing the door and on a podium.
We would choose another room, for example Sonate.
The fake sheepskins in the restaurant was a pity. The color white color accent was ok... but woollen plaids would have been more elegant.
